Josh,

I wanted to check in to see how the SI sampling plan is going? I hope you have the majority of the data and information you'll need to write it. I have also sent you the beginnings of a set of tables with some data and well locations. They are preliminary, sorry about that. Hopefully if you need the data you can manipulate it the way you need it. All of the data has been entered into the .kmz file for Google Earth. I may have a couple other requests coming up to aid in access to the PRPs properties. I think they will need the residential removal investigation maps Weston has already made. Let me know when you are ready to discuss the sampling.
